

In-line Heater and Ozonator

The In-line Heater automatically turns on when the water jets are activated. The Ozonator will also turn on automatically. There are no buttons that need to be pressed for either of these to activate.

Water Pump Shut-off

Installed as a safety feature, the Water Pump will automatically shut off after 15-20 minutes of use. This is a protective heat sync that is designed to keep the water pump from overheating.

Door Seal

To maintain your warranty and to avoid premature wear and tear on the door seal, be sure to keep the door open when not in use.

Cleaning Care and Use

The water and air jet systems should be cleaned before first use and on a monthly basis afterwards if the bathtub is in normal use.

1. Fill the bathtub with WARM water 2-3 inches above the jets.
Add 1/4 to 1/2 box of baking soda to the bathtub water.
2. Turn on water and air jets massage systems and run for 10 minutes.
3. Turn off the water and air jet massage systems
4. Drain bathtub
5. Use BCI Eliminate or a mild liquid household detergent, spray-on or aerosol cleaner designed for use on acrylic bathtubs, and wipe with a clean soft cloth. A soft bristled brush may be used in the textured areas of the slip-resistant floor if necessary. Never use ammonia, bleach or abrasive cleaner when cleaning the surface or the jet systems. Cleaners must say safe to use on acrylic. **NEVER USE ABRASIVES OR POWDERED CLEANSERS.** They will scratch and dull the surface. Test on a small area for the cleaner's effect on the finish. **DO NOT USE METAL SCRAPERS, WIRE BRUSHES OR OTHER HARSH ABRASIVE TOOLS.**

Warranty

We offer a 5-year warranty on the Alexis shell, hinge, door and seal and a 2-year warranty on all other Alexis components. Speak with your representative to learn more.

Congratulations on your new Alexis Walk-in-bathtub!

With the Alexis walk-in bathtub, bathing at home is effortless, safe and soothing. Easy to enter with a low threshold and built-in safety grab bar, the Alexis has everything you need in a walk-in tub. Plus, the Alexis is the only walk-in tub to offer all five relaxing therapeutic features standard. The Alexis walk-in tub conveniently fits into the same space as a standard-sized bathtub or 5 ft shower.

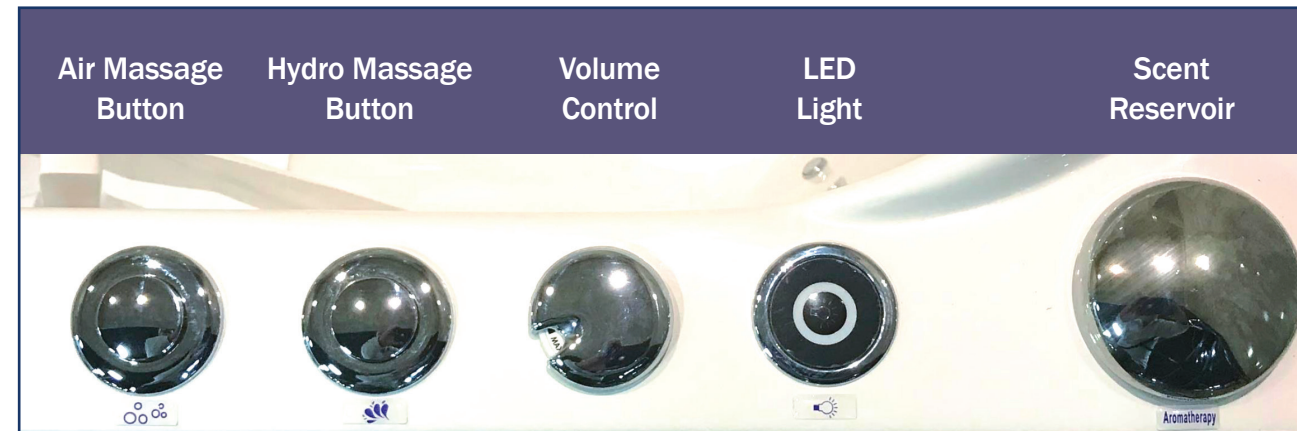

Scent Reservoir for Aromatherapy

Screw off the Scent Reservoir cap and place your favorite scented beads inside a sachet bag into reservoir. Replace cap and press the Air Massage Button and your favorite scent will enter the water through the air jets.

PLEASE NOTE: To maintain your warranty, use only approved cleansers. Also, avoid using scented oils or Epsom Salt in the Walk-in tub.

Control Panel

Air Massage

With the tub filled with water, press down the Air Massage Button and pre-heated air will penetrate the 18 air jets creating a relaxing, therapeutic spa.

Hydro Massage

With the tub filled with water, press down the Hydro Massage Button and a thrust of water will penetrate through the 10 directional water jets creating a relaxing, therapeutic spa.

LED Light for Chromotherapy

The use of colored lights in water improves one's mood and enhances relaxation. Chromotherapy is used for stress, insomnia and seasonal affective disorder. (Tub shown without seat cushion.)

Volume Control

Controls the thrust of water through the jets. Adjust it to your own comfort level.
